rise to the machine

## SmartMixx™ : recommended by ARDEX

[SmartMixx™](#) is the ultimate mixing station for self levelling cement, developed & manufactured by Concrete Artisans Pty. Ltd, Australia & available early 2010 for sale to contractors world wide.

**SmartMixx™** is the essential piece of equipment to mix and pour self levelling cements such as Ardex K15, K12, K80, K301, A55, Arditec and the new Ardex Pandomo K1. But don't just take our word for it, **SmartMixx™** has been tested, approved and recommended by ARDEX Australia as the most efficient mixing station for levelling compounds:

*“Correct mixing is critical to the performance of ARDEX levelling compounds. After putting the **SmartMixx™** through its paces in our Sydney laboratory, we can confidently say that the combination of mixing capacity, helical paddle design and built-in timer makes for a perfectly mixed ARDEX product in the shortest possible time.”*

Dr. Rolf Offerhaus  
ARDEX Technical Manager  
Ardex Australia Pty Ltd

**SmartMixx™** works because it's been designed by Contractors for Contractors. No one understands better how self levelling cement performs in all conditions. That's why Concrete Artisans carefully developed, over many years, the ultimate mixing station: **SmartMixx™** .

Extensively documented during hundreds of installations, **SmartMixx™** produces a perfect mix every time. These are some of its main features:

- Hands Free Mixing
- 4 wheel Mobility
- Precision Pouring
- Mix and Pour up to 80kg
- Transport Product and Tools
- Ultra Light Weight Aluminium: 18kg
